SUMMARY

Currently a fourth-year Software Engineering undergraduate at the Sri Lanka Institute of Information Technology (SLIIT). I have a strong passion for web development, with hands-on experience in full-stack development using Laravel, React, and Tailwind CSS, and have worked on real-world projects like the **Southern Sri Lanka Tourism Website** while working with Rightmo Web
I possess a solid foundation in Java and Python, along with practical exposure to the .NET framework. My goal is to become a proficient software engineer, capable of building scalable, secure, and user-friendly applications that deliver real value.
Eager to take on new challenges and continuously grow both technically and professionally.

EXPERIENCE

Intern Full Stack Developer

Rightmo Web Solution | Galle, Sri Lanka **Sep 2024 – Apr 2025**

Contributed to real-world projects using Laravel and React, including tourism, business, and task management systems. Executed key features such as authentication, API integration, and chatbot support. Applied hands-on experience with UI design (Tailwind CSS), debugging, and collaboration tools such as **GitHub**, **Postman**, **Trello**, and **Hubstaff**.

EDUCATION QUALIFICATIONS

BSc. (Hons) specialized in Software Engineering

Sri Lanka Institute of Information Technology (SLIIT) **Sep 2022 - Present**

- **Foundational Development** : Built a web application using HTML, CSS, and PHP.
- **Intermediate Full-Stack Development** : Developed a Java-based OOP project and a full-stack application using ASP.NET (backend) and Vue.js (frontend).
- **Enterprise Development :** Enterprise-level solutions for EV owners and station operators.
- **Mobile App Development**: Created a Kotlin-based mobile app with a focus on UI/UX design.
- **Research Project**: sinhalalearn.online Developed an AI-based educational assistant for Sinhala resources, aiming to improve language learning through AI-driven analysis and personalized feedback.
- **Recognition**: Included in the **Dean's List** for 1 Semester

---

GCE Advanced Level - 1B 2C's **Jan 2019- Mar 2022**
Combined Mathematics, Chemistry, Physics
Mahinda College , Galle

GCE Ordinary Level - 9A's **Jan 2013- Dec 2018**
Mahinda College , Galle

TECHNICAL SKILLS

- Languages: Java, Python, R, Kotlin, JavaScript, PHP, C#, TypeScript, Go
- Web Technologies: Next, .NET, Vue.js, Laravel, React, Springboot, FastAPI, Postman, Swagger
- Mobile Development: Flutter, Kotlin, Firebase
- Databases: SQL (MySQL, PostgreSQL), NoSQL (MongoDB, Firebase Firestore)
- Version Control: Git, GitHub
- Cloud Platforms: Microsoft Azure
- DevOps & CI/CD: Docker, Jenkins

NON TECHNICAL SKILLS

- Problem-solving
- Adaptability
- Team collaboration
- Time management
- Self-Learning

PROJECTS

Southern Sri Lanka Tourism Website **https://southernsrilanka.lk**

- Developed a full-stack tourism management platform to promote the Southern region of Sri Lanka.
- Used Laravel (backend) and Tailwind CSS (frontend) to build booking management, admin panel, and chatbot integration.

Task Management Web Application **https://workstreamhub.store**

- Designed a Kanban-style task manager similar to Trello using Laravel (backend) and React (frontend).
- Implemented JWT-based authentication, RBAC (role-based access control), and task/comment management.

FlavorFleet

- A full-stack food ordering app with a microservice architecture, featuring real-time delivery tracking, payment integration, and restaurant management. Built with React, Node.js

Onself Clothing **https://onself.lk**

- Launched an e-commerce platform for the Onself clothing brand using Next.js. It enabling seamless product browsing

EV Charging Mobile App and Web App

- An end-to-end EV charging station booking system for Sri Lanka, featuring mobile and web applications for EV owners and station operators. Built with React.js and C# Web API

Garbage Collection & Recycling Management System

- A full-stack waste management app that allows users to schedule pickups, track waste collection, and receive notifications. Built with Node.js, React, and MongoDB

VOLUNTEER EXPERIENCE

- **Member of project Suwa Sawiya 2.0 (Award Winning project | J'puraC2 Leos)**
